

# Think-Pair-Share

## Service-Learning & Community Based Learning

On your own, jot down responses to the questions below. Then, turn to 1-2 people near you to discuss your responses. Finally, have the group report out their responses to the last two questions by writing them down on the large paper on the wall.

Describe any experiences with service-learning and/or community based learning.

Were these experiences mostly postive, negative, or a mixture of both?

Why did you choose to attend this session? (i.e. what do you hope to learn?) 

At this moment, what is your biggest burning question about service-learning or community based learning?
